Important Notice to Help Avoid Penalties on Your Real Estate Taxes

All property taxes must be paid by January 15th. If you have appealed the valuation of your property and the appeal is not settled by January 15th, the assessment will be billed at 80% of the valuation. Again, the tax amount must be paid by the due date. If there is a change in the value after the taxes have been paid, the tax payer will be given a refund or sent an additional bill with the remaining amount due.

If you have filed for the 4% Legal Residence Rate or Agricultural Use Classification and have not received the corrected bill by the due date of January 15th, the bill that is current must be paid by January 15th regardless of whether the amount is correct or not. If payment has been made a refund will be issued after all changes have been completed.
