By signature of this document I am requesting that the County Assessor's office merge the listed properties for taxation and reduction of paperwork.

I understand that to RE-SPLIT the listed properties, all current land use controls as of the "active" ordinance will need to be followed and processed by the correct jurisdictions Planning Department.

***Property will be combined for the 2010 tax year. Current year (2009) taxes will be billed separately.**

Signature

By State Law you will need to re-apply for any special assessments, such as Legal Residence and/or Agricultural Use.
